

I really enjoy the Computer Science lessons. I love using Scratch to create quizzes, games and animations!

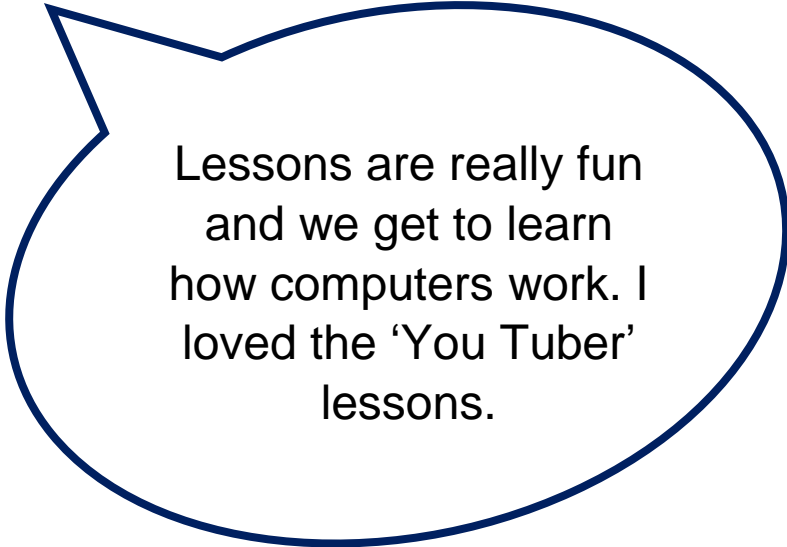

I like having the Chromebooks in our classrooms because we can use them in all of our lessons. I like using them to research in Geography and History.

Computing

Pupil Voice

We get lots of help from the teachers in lessons and the Digital Leaders, but I've got better at trying to problem solve and debug since September.

Lessons are really fun and we get to learn how computers work. I loved the 'You Tuber' lessons.
